PG-9041/9041s

Powerline Ethernet Adapter

The PowerGrid 9041(s), Home Plug AV broadband standard compliant Ethernet adapter, provides superior quality data transmission for high-speed networking. It allows users to extend a local area network via existing power lines, eliminating the need for extra wiring. Installation at home (or in a small office) is quick and easy as the PowerGrid 9041(s) comes with plug-and-play technology.

The PowerGrid 9041s*** supports ClearPath with an AC filter female power socket and can be used with the neutral-ground pairs for preventing noise interference from other home appliances to attain higher PHY rates/throughputs and better coverage over other Home Plug AV products. The PowerGrid 9041(s) comes pre-configured for plug-and-play home networking and it features advanced encryption algorithms for safeguarding the network integrity, thereby creating a safe and secure home network environment that delivers quick and convenient access to information and entertainment.

FEATURES

- **ClearPath**

Supports ClearPath technology and can be used with neutral-ground pair for higher PHY rates/throughputs and better coverage over the other HPAV products. (HPAV technology utilizes the phase-neutral pair only)

- **High Speed Data Transmission**

High speed (up to 200Mbps) dramatically increases the performance of next-generation home entertainment applications such as multiple high definition (HD), 3DTV and standard definition (SD) video distribution, TV over IP (IPTV), digital video recorder (DVR) networking and media center PCs.

- **No Extra Wires Needed**

Local area network can be extended without the hassle of having to install extra wiring because the power line network is already a commonplace fixture in most households.

- **Simple Pairing, Plug & Play**

Quick and easy connections with embedded plug-and-play, no extra configuration required!

PowerGrid 9041(s) can be paired easily by simply connecting Ethernet cables to routers and devices.

- **Extends Connecting Range & Eliminates Dead Spots**

Unlike wireless, Power line technology is capable of actually covering more than 95% of a typical household area.

- **More Outlets than Other Wired Solutions**

On average, there are 45 power outlets and only 3-5 cable or phone outlets in a household, therefore making power lines a more convenient solution for extending networks.

- **Security**

With advanced data encryption capability, the power line networks are safer and more secure.

PowerGrid Series PG-9041/9041s

SPECIFICATIONS

Interface

- RJ-45 X 1 for Ethernet connection
- AC power plug X 1
- AC power socket X 1

Ethernet

- Standard IEEE 802.3
- 10/100 BaseT auto-sense
- Auto rate and duplex negotiation
- MDI/MDX support

Modulations

- OFDM, FEC; Flexible frequency configuration

Data Rate

- Up to 200Mbps

Management

- HTTP Web-based management; Firmware upgrade via
- TFTP/TR-069 Supported (Optional)

Security

- AES 128 bits encryption ensures total data security

Networking Protocols

- 802.1D Ethernet Bridge
- 802.1Q VLAN
- Quality of Service (QoS)
- IGMP(IPv4) Snooping & MLD(IPv6) Snooping

Power

- 110-240 VAC 50Hz/60Hz
- Auto power saving mode max 0.5W (in standby mode)

Environment Condition

- Operating temperature: 0 ~ 40 degrees Celsius
- Relative humidity: 8 ~ 95% (non-condensing)

Dimensions

- EU/French version: 137mm(H)x 68 mm (W) x 61mm(81 mm with plug)(D)
- UK version: 124 mm (H) x 68 mm (W) x 46 mm(69 mm with plug)(D)

Certifications

- FCC, CE class B, WEEE, RoHS, REACH

Note: Specifications are subject to change without notice

***PG9041s (s = with ClearPath technology)
